Privacy Policy – SzigetNavi (powered by NaviGen)

Effective date: August 2025

1. Who We Are

We are **HAXMOUNT SYSTEMS LIMITED** ("we," "us," "our"), the developer and provider of NaviGen-powered applications that assist event-goers and tourists in finding points of interest, friends, and services at live venues, festivals, and other locations.

Our current application, **SzigetNavi**, is designed to support visitors of **Sziget Fesztivál**. Future releases may be adapted for different events or destinations under different names, but the principles and commitments described in this Privacy Policy will continue to apply.

2. Our Commitment to Privacy

We believe privacy is a **fundamental right**. The App is intentionally designed to operate with **minimal data collection**, ensuring that you can use it without giving up personal information, creating accounts, or being tracked for advertising purposes.

3. What Data We Collect

The App does not collect or store personally identifiable information on our servers. Any data stored is kept **locally on your device** and remains under your control.

Specifically:

- **GPS Location**: Used locally to provide navigation and location features. Never transmitted to our servers.

- **Saved Pins / Favorites** (*future feature*): Stored locally only.

- **Purchase Receipts**: Stored locally. All payments are processed securely by **Stripe**; we never see your card or bank details.

- **Language Preference**: Stored locally via browser storage.

- **User Email / Identity**: Not collected.

- **Crash / Analytics Data**: Not collected at this time (may be introduced in the future with prior notice).

4. Why Data is Collected

Any data the App uses is solely for enabling the features you interact with directly:

- Showing your current location on a map.

- Remembering your preferences between sessions.

- Facilitating optional purchases (e.g., add-ons) securely via Stripe.

We do **not** use your data for:

- Advertising or marketing purposes.

- Behavioral profiling.

- Selling to third parties.

5. How Data is Stored and Protected

- **Local Storage**: All data is kept in your device's local storage or browser storage.

- **No External Databases**: We do not maintain centralised databases of your usage.

- **Security**: While data never leaves your device, we encourage you to secure your device with a PIN, password, or biometric lock to prevent unauthorized access.

6. Data Sharing

We do not share, sell, or trade your data.

When you choose to share your location (e.g., using the "Share My Location" feature), the coordinates are sent directly using your device's **native sharing tools** (such as messaging apps, email, or social platforms). We do not intercept, store, or transmit these coordinates through our own systems.

7. Your Rights and Choices

You remain in control of your data at all times. You can:

- Use the App anonymously without creating any account.

- Decline to use optional features.

- Clear all stored data by using the **"Reset App"** option.

- Stop using the App at any time without obligation.

8. External Services Used

We may use the following external services strictly to support functionality:

- **Stripe** – for secure payment processing. Card and payment details never pass through our servers.

- **Google Maps** – for opening and displaying map locations.

- **Browser Storage** – for saving local preferences such as language settings.

We do **not** use advertising SDKs, behavioural analytics platforms, or third-party tracking technologies.

9. Non-Affiliation Notice

NaviGen and SzigetNavi are independent products of HAXMOUNT SYSTEMS LIMITED. They are **not affiliated with, endorsed by, or officially connected to** the organizers of Sziget Fesztivál or any related entities, partners, or sponsors in any form.

10. Changes to this Privacy Policy

We may update this Privacy Policy from time to time to reflect operational or legal changes. Any updates will be published within the App and/or on our website, with the "Effective date" updated accordingly. Continued use after changes indicates acceptance of the updated Privacy Policy.
